

## **MANUDEN CHURCH CHANGES**

We are pleased to say that much needed work is now being carried out at the church. As already referred to in the last Parish News the ringing chamber is being raised to another and new floor thereby making room for a much needed disabled/able bodied toilet.

Whenever there are baptisms, weddings and funerals, because families often come from quite long distances there is a need for such facilities. That also applies to the times we have concerts or plays in the church. It is also planned to have a 'tea-point' in the same tower area so that coffee etc can be made after church, rather than using the area we already use just inside the church porch door. For a number of important reasons, the main one not to disturb the bats (!) the work has already started, but there will be some time before the external work is completed as we are still short of the finances needed to complete the work, so if you are reading this and would like to support the work we are doing please contact me or the PCC treasurer Stephen Barratt. Thank you. Canon Chris Bishop
